

# Central Archive of Land Surveying and Cadastre

The Central Archive of Land Surveying and Cadastre is organizational part of the **Land Survey Office** in Prague. It collects and makes available the results of large geodetic and cartographic works having been realized at the territory of the state in the past.

Documents are formally part of the **Archival Fund of the Czech Republic**. Archive contents approximately half of million of maps and other documents divided in the funds and collections as follows:

- ✓ funds of geodetic measurements,
- ✓ funds of cadastral and real estate maps,
- ✓ funds of historical topographic (middle-scales) maps,
- ✓ collection of geographic (large-scales) maps, thematic maps of many kinds, school maps etc,
- ✓ collection of surveying and cartographic instructions and directives,
- ✓ collection of photographs,
- ✓ collection of surveying instruments.
